

NOTICE OF A PROPOSED CHANGE TO AN APPROVED RENEWABLE ENERGY PROJECT

Project Name: Barlow Solar Energy Centre (the Project)
Renewable Energy Approval Number: 0173-AW6HLN
IESO Reference Number: L-006357-SPV-001-010

Project Location: The Project is located on Lot 20-21, Concession 4, in the Township of South Stormont, United Counties of Stormont, Dundas, and Glengarry, Ontario, bounded to the south by Cornwall Centre Road. The Project is connected to the Hydro One electrical grid at the Point of Common Coupling, located at Cornwall Centre Road.

Dated at: The Township of South Stormont, United Counties of Stormont, Dundas and Glengarry, and the City of Cornwall, on this 23rd day of August 2019

Barlow Energy Centre GP Inc. as general partner for and on behalf of Barlow Energy Centre Limited Partnership was issued a Renewable Energy Approval on April 3, 2018 in respect of Barlow Solar Energy Centre. Information with respect to the decision on this project can be viewed on the Environmental Registry by searching Registry number 013-1605. Barlow Energy Centre GP Inc. is proposing to make a change to the project and the project itself is subject to the provisions of the *Environmental Protection Act (Act)* Part V.0.1 and Ontario Regulation 359/09 (Regulation). This notice must be distributed in accordance with section 32.2 of the Regulation. This notice is being distributed to make the public aware of a change to the project.

Project Description and Proposed Change:

Pursuant to the Act and Regulation, the Project in respect of which the Renewable Energy Approval was issued, is a 10-megawatt (MW) Class 3 Solar Facility used to convert solar energy to electricity.

An application has been made to the Ministry of the Environment, Conservation and Parks (MECP) to change the project and change the terms and conditions of the existing Renewable Energy Approval. The change is to the conditions of the existing Renewable Energy Approval as a result of the main power transformer at the substation not being constructed for the Project. There is no change to the total maximum name plate capacity of 10 MW to the facility and the overall project location remains unchanged. The project location is shown on the map.

Documents for Inspection:

Barlow Energy Centre GP Inc. has submitted a modification document to the MECP. The modification document is available for public inspection on the Project website: www.edf-en.ca/project/barlow/

Project Contacts and Information:
