

NOTICE OF A PROPOSED CHANGE TO AN APPROVED RENEWABLE ENERGY PROJECT

Project Name: Pendleton Solar Energy Centre (the Project)
Renewable Energy Approval Number: 3116-AWEQUG
IESO Reference Number: L-006355-SPV-001-012

Project Location: The Project is located east of County Road 19 and south of County Road 2 (Lot 19-20, Concession 8) in the Township of Alfred and Plantagenet, United Counties of Prescott and Russell. The point of Common Coupling (point where Hydro One has connected the Project) is located adjacent to the Project within the road allowance on the east side of County Road 19.

Dated at: The Township of Alfred and Plantagenet, United Counties of Prescott and Russell, on this 28th day of August 2019

Pendleton Energy Centre GP Inc., as a general partner for and on behalf of Pendleton Energy Centre Limited Partnership was issued a Renewable Energy Approval on April 3, 2018 in respect of Pendleton Solar Energy Centre. Information with respect to the decision on this project can be viewed on the Environmental Registry by searching Registry number 013-1685. Pendleton Energy Centre GP Inc. is proposing to make a change to the project and the project itself is subject to the provisions of the *Environmental Protection Act (Act)* Part V.0.1 and Ontario Regulation 359/09 (Regulation). This notice must be distributed in accordance with section 32.2 of the Regulation. This notice is being distributed to make the public aware of a change to the project.

Project Description and Proposed Change:

Pursuant to the Act and Regulation, the Project in respect of which the Renewable Energy Approval was issued, is a 12-megawatt (MW) Class 3 Solar Facility used to convert solar energy to electricity.

An application has been made to the Ministry of the Environment, Conservation and Parks (MECP) to change the project and alter the terms and conditions of the existing Renewable Energy Approval. The change is to the conditions of the existing Renewable Energy Approval as a result of the main power transformer at the substation not being constructed for the Project. There is no change to the total maximum name plate capacity of 12 MW to the facility and the overall project location remains unchanged. The project location is shown on the map.

Documents for Inspection:

Pendleton Energy Centre GP Inc. has submitted a modification document to the MECP. The modification document is available for public inspection on the Project website: www.edf-en.ca/project/pendleton-solar-energy-centre

Project Contacts and Information:
