

## EDF Renewable Services PROJECT DEPLOYMENT AND SUPPORT

**10.9 GW**  
north america

**9,575 MW**  
wind

**1,279 MW**  
solar

**6,064**  
wind turbines

**20**  
turbine manufacturers

**1,400**  
solar inverters

**479**  
technicians and supervisors

**30**  
years in the  
renewable industry

Recognizing the need for a highly skilled team ready to rapidly mobilize to fill service gaps and handle the toughest repairs at renewable energy projects, EDF Renewable Services created the Project Deployment and Support Department (PDS).

Our well-trained and experienced PDS technicians and specialists are dispatched to sites in well-equipped trucks with the tools and equipment they need to perform any type of equipment maintenance in the US, Canada and Mexico.

### INSPECTIONS
